Professional Experience: Stephen J. Wessling, AIA, SCI, ICC is the President of Stephen J. Wessling Architects, Inc., a firm he founded in 1992 in Quincy, Massachusetts.

Education: Prior to receiving a Bachelor of Architecture degree from Boston Architectural College in 1975, Stephen received Certification in Architectural and Structural Engineering at Weymouth Vocational Technical High School Postgraduate Program in 1967.

Summary of Background: Stephen is a multi-disciplined architect, registered in fifteen states, and has accumulated over 40 years of in-depth experience on an extensive variety of building types and sizes.

Stephen is a creative and cost-effective designer, able to build strong client/architect relationships. He has extensive experience in documentation and resolution of building problems, significant construction administration experience and extensive technical knowledge. Stephen has proven ability to secure building permits and approvals at all stages of a project and is accomplished as an entire building architect.

Professional Activities

Awards

Boston Preservation Alliance – Preservation Achievement Award
BOMA of Boston – The Office Building of the Year
ICRI New England - Project of the Year
ABC MA, ABC Eagle Award Excellence in Construction
Illumination Engineering Society of North America, International Illumination Design Award
