Education:

Dr. Julian holds graduate degrees both in organization policy design and implementation and in clinical psychotherapy with a post-doctorate in sexual science. She is a dual licensed mental health clinician. Trained in human systems analysis, she is uniquely qualified to assess the consequences of behaviors on organizational and group outcomes. She specializes in the relationship between acts attributed to an organization and the responsibility of individuals. This may include, but is not limited to, sexual, discriminatory or traumatic behaviors occurring within an organization. She has over 7,000 post-doctoral hours (academic and clinical training) including 4000+ hours in clinical sexology. She is the former head of two hospital sexual medicine units. Dr. Julian has been a college administrator in graduate programs in Human Resources and Public Policy. In addition she has been a graduate professor in criminology and mental health forensics.

---	--

Professional Experience:

Dr. Julian has worked on five continents in cases involving issues as diverse as mass disasters, (natural and man-made), sexual crimes, male and female sexual trauma, mass rapes, gender crimes, PTSD relating to war and disasters requiring complex social and human systems analysis. Her international experience has informed her ability to understand the motivations and dynamics in cases where ethnicity, culture, gender roles and social perceptions are an issue. Dr. Julian is a popular and animated public speaker which enables her to explain terms easily and to engage with a jury as an effective witness. She was the producer of the first training film on sexually assaulted males.

Teaching:

Professor of Human Resources and Public Policy/graduate school of management. Concurrently also a graduate professor of Victimology and Criminology. She has taught over 60 advanced education courses to clinicians, attorneys, businesses and industry groups on clinical and business issues.

Services:

Evaluation of mental health testimony & experts. Analysis of corporate documents and data to determine standards of performance and compliance; assistance in the strategizing and prioritizing of case issues, mediation support; language design for specific populations; analysis of the actual vs. the alleged trauma outcomes; and case consultation and assistance to the attorney with voir dire and other expert testimony. Approximately 50% Plaintiff and 50% Defense cases.
