Areas of Expertise:

- Analytical Microbiology
- Applied Microbiology
- Bacteria / Bacteriology
- Food Safety
- Microbial Damage
- Microbiology
- Mold & Fungal Identification
- Rapid Microbial Identifications

Professional Summary:

Dr. Hemming is an accomplished science and business professional with over 35 years of real-world experience in microbiology and its practical application relating to product quality. He has earned several awards related to his work and research, which has included being selected as a Ralph M. Johnson distinguished guest lecturer and has presented his work in Austria, England, France, Germany, Israel, Japan, Yugoslavia and many US universities. He is the author or co-author of more than forty peer-reviewed scientific journals and industrial publications including a textbook on iron nutrition in plants and microorganisms published by Academic Press.
