Criminology, 1986, CUNY, John  
Jay College of Criminal Justice.  
Dean's List Honoree.  
Magna Cum Laude

## Background

---

Mr. Yalkin Demirkaya has twenty years of law enforcement experience as a Detective Investigator as well as a Detective Commander. In addition to his responsibilities as the Commander of the Computer Crimes Investigations Unit, Mr. Demirkaya has also served as the Chief Information Officer (CIO) & Chief Information Security Officer (CISO) of the Internal Affairs Bureau of the New York Police Department. Mr. Demirkaya was responsible for the formation of the first computer crimes investigation unit dedicated to internal investigations in the government sector. Mr. Demirkaya has pioneered and perfected investigative techniques for computer crime investigations and possesses thirty-seven years of computer experience as a white hat hacker. He is the founder and served as Commanding Officer of the Computer Crimes Investigation Unit of the Internal Affairs Bureau, New York Police Department.

Mr. Demirkaya is one of the world's leading experts in the field of computer crime investigations and was responsible for the creation of policies and investigative procedures in the area of computer crime. Mr. Demirkaya has extensive experience in investigations of all levels of computer crime. Mr. Demirkaya has lectured extensively on and provides training in Computer Crime Investigations, Computer Forensics, Network Forensics and Computer Security to Law Enforcement, Legal, Academic and Business communities.

Mr. Demirkaya provides expert testimony and consulting services in the areas of Electronic Data Discovery (eDiscovery) and Computer Forensics. By combining his technical expertise in the information technology field with his in-depth knowledge of the Federal Rules of Civil Procedure that relate to eDiscovery matters, Mr. Demirkaya brings a unique set of skills to the projects he is involved in. He routinely provides consultations to and advises legal professionals in technical and procedural matters relating to eDiscovery procedures from meet and confer to final production.

Mr. Demirkaya has successfully investigated and recovered key evidence in a number of high-profile computer crime investigations throughout the world. He has supervised and personally conducted hundreds of computer crime investigations and computer forensic examinations throughout the U.S., Europe and Asia. He is particularly familiar with the rules governing electronic evidence and computer forensics in the United States, European Union, Italy, France, and England, among many other jurisdictions.

Mr. Demirkaya holds a B.S. in police science with criminology minor and an M.A. in criminal justice with computer science concentration from the City University of New York, John Jay College of Criminal Justice. He is certified by the United States National Security Agency (NSA) as Information Security Assessor. He is a Licensed Private Investigator (NYS#11000141778), Certified Computer Forensics Examiner and Digital Forensics Certified Practitioner (Cert # 210-39-135).
