Michael J. Puckett, MPH, CIH, CSP, REHS

President and Principal Consultant

Summary of Relevant Qualifications

Mr. Michael Puckett is considered by many of his clients and peers as one of the most knowledgeable industrial hygienists in California's Central Valley. Michael's high standards, depth of knowledge and more than 18 years of experience as an industrial hygienist and environmental health specialist have time and again proven to be valuable resources for clients. He consistently uses his knowledge of regulations and various modalities of analysis to help clients understand and solve some of their most challenging worker safety and health and environmental health issues. Projects requiring Michael's specialties are served well by his thorough and in-depth knowledge of air contaminants as well as his familiarity with nationally recognized methods of research and analysis. Michael has completed a wide variety of projects with Federal, State, local government and a variety of local municipalities and other public agencies as well as private businesses.

Work Experience

President and Principal Consultant. Central California EHS, LLC, Fresno County, CA. Provide comprehensive occupational and environmental health consulting to a wide variety of clients in all areas ranging from mold to workplace monitoring to developing exposure reduction programs.
